Meadow Creek Notes

Mr. Walter Glimbert of Meadow Creek on Tuesday met with a terrible accident when he and Mr. W. Downer were driving along. Mr. Glimbert was leading a colt behind the wagon. The colt pulled him out back and fractured his shoulder and collar bone. Mr. Glimbert was taken to Calgary to the hospital on the night train.

W. McKinnon went to Lethbridge on Wednesday last.

G. Bell and son went to the timber limits at the head of Trout Creek to build a cow camp and expect to take the horses and cattle up in a week or so.

Judgment Favors "Movie" Theaters

Mr. Justice Beck Declares Lethbridge Circuit Court Collect the License Fee

Lethbridge, May 18.—A decision of interest to the province generally as to the validity of a city by-law enforcing the payment of a license fee of \$100 on moving picture houses, was rendered Saturday by Mr. Justice Beck, presiding at the supreme court, in all sessions.

The case was first submitted by the city solicitor when J. Wilson, manager of the Sherman theatre, refused to pay the city license on the ground that he had already paid a provincial license. His lordship held that the theatres are not within the provincial legislature in 1912, providing for the licensing of moving pictures and the subsequent order-in-council in November, 1913, as to the payment of license fees, which the city by-law, passed according to the charter in September, 1913, in conflict with the provincial law. Therefore, the by-law could not be lawfully enforced.

Small Potatoes For Swine

In the spring most farmers who grow potatoes find they have a surplus of small potatoes which may be utilized to good advantage in feeding swine. Usually there is a certain proportion of potatoes rejected for cooking purposes and they may be too small for planting.

The advantage to be gained from feeding these depends very largely on the way in which they are fed. It is a fact that swine are not particularly fond of raw potatoes, nor will they make great gains even though fed largely on them.

The feed has long ago been established when potatoes are fed to swine in the fall of the year, the benefit obtained from feeding them is greatly enhanced with meal of some kind. In this way extra good results have been obtained by being prepared for the market.

It is probably not so generally known, however, that potatoes can be returned to excellent account in feeding young pigs. At the weaning season and subsequently, and even some time before weaning, if they are balled and fed along with skim-milk, the results will be far more than repay the labor of preparing them. Only small quantities are required when they are thus fed, consequently the labor of hauling is not serious as it is sometimes when very large quantities of potatoes are being used for fattening swine.

Some caution however is necessary in feeding potatoes in the spring. If the sprouts have developed to any considerable degree and are fed along with the potatoes, they contain a poisonous principle which will cause the potatoes to do more harm than good. The same is true of potatoes that have been exposed to the sunlight until they have assumed a green color on the outside.

On account of Celebration Monday May 25, I wish that all the patrons will bring in their orders before noon. B. Lundh, Butcher.

Individual Fair Play

To a herd of 12 dairy cows the average yield last year was 3,790 pounds of milk and 144 pounds of fat. The 10 best cows in the district averaged 6,289 pounds of milk and 221 pounds of fat, while the 10 poor est gave only 2818 pounds of milk and 107 pounds of fat.

When it is seen that the difference in the average of these two groups of 10 cows is 3,475 pounds of milk, while between the best and poorest individual cow there was actually a difference of 6,185 pounds of milk, it is quite evident that figuring out just a cold, dead, machine like "average" is quite unsuitable and unfair when it comes to dealing with a living, nervous, sensitive cow.

That difference of \$61.45 between the earning power of two individual cows indicates the cow's natural re- sponse against mere mechanical treatment. Being an animated and complex machine of nerves and tissues she needs study of her particular likes and dislikes, then her best results will be cheerfully given. She is not simply one of a team, but an individual whose peculiarities are well worth studying to ensure development.

The average may be useful in giving the justice to each cow only when all in the herd are equally good. Just as long as these remarkable differences exist between individual cows, there will also remain the need for a record of each one and its production of milk of each one separately. Then the lead can be built up on the individual system of each one contributing a good measure of profit; otherwise the delicacies of several poor cows add to the heavy burden shouldered by the best cow. The best cow, the best of the team that the workers of the team that do much more profit. Dairy records give fair play to each cow and help in judging an individual merit.

Church of England services were resumed at Stately last Sunday when the Rev. H. M. Henderson was taken here by the kindness of Mr. Thos. Guy. The music under the direction of Miss Colp was good and the singing excellent. It was made possible by the organization of a good choir. A Sunday school was started which will meet next Sunday at 2 p.m. Mr. Henderson hopes in a day or so to start a branch of the Women's Auxiliary as to have the music complete.

Died

On Sunday evening last at 10:10 Mr. J. Robertson a prosperous farmer in this district passed away. The remains were placed in the Clareholm Cemetery on Tuesday afternoon. Mr. Robertson lived in this vicinity for seven or eight years and during that time he took an active part in agricultural and municipal work and was a lover of horses. Some time ago he moved to the western coast but while there took ill returning here in December from then he has been in poor health. He leaves a wife and one child to mourn his loss.

OIL NEWS

Mrs. Shanks, Mrs. Mitchell and party motored to the Oil Wells at Okotoks, on Saturday from there on to Calgary and returned Sunday evening.

A number of business men in Clareholm are interested deeply in all shares and will sell anywhere from 50 cents to \$100.

Messrs. J. Mitchell, F. Moffatt, O. L. Reinicke and D. B. Vanhorn, motored to the wells on Friday, then to Calgary and returned home on Saturday.

George Rounds, and W. Shanks could not keep away from the excitement so they took the train for Calgary on Monday.

On the way between Mached and Calgary many cars are resting up in the ditches with broken steering gears, axles, rims and punctured.

Many who visit the wells get their cars filled with the oil which is 55 per cent pure gasoline, others fill empty bottles, (where do the bottles come from?)

It is reported a company will be located by wealthy merchants of Okotoks on Tuesday last on account of the bad being so deep they could not get out to the oil wells.

Several small meetings have been held in town this week in object to forming a company and drilling wells in search of oil in this vicinity.

Humor

"What did you tell your wife when you got home from the club last night?"

"I told her she was the sweetest woman in the world."—Boston Transcript.

"Good back to smoking yet?"

"None."

"You must have considerable will power."

"Well, what I lack my wife sup- plies."—Louisville Courier-Journal.

"How did you come out of that deal in Wall street?"

"I got several thousand dollars' worth of experience. But the price on experience has gone away off, with no chance that I can see of recover- ing."—Washington Star.

Ho—How, did you enjoy your tour in France?"

She—Oh, immensely; it was so de- lightful to hear the French peasants singing the Marseillaise.—Sketch.

"I am sorry to learn your mother is ill," said the sympathizing teacher to the little girl who came in late. "Is she sick abed?"

"Not quite," replied the truthful child. "She's just sick a-sad."—Chicago Tribune.

The Lights

A week ago yesterday the town lights went out on account of some break or crack in the machinery at the power house and although the town was in darkness for five days business was held back very little as stores and houses found lamps and candles which filled the bill as of old. What suffered greatest was the picture theatre which was closed down all the time. On Monday evening about 8:30 the town was again lighted by electricity and that evening the "movies" were shown and will be shown every night.

A Century Ago

A hundred years ago electric cars and electric lights were unknown—no bad! even now a bicycle.

The typewriter was yet to be in- vented—stenographers were yet to come.

One could not hear grand opera stars on a gramophone or even strike a match—both were unknown.

He had never seen his own likeness photographically stamped by the action of the camera—had never talked over the phone or ragged at "central."

The only bridge he had ever crossed was of wood—as was the only play he had ever seen.

He couldn't buy a ten cent mugger, nor could he colored illustrations or send a telegram to hurry along a toilet order.

SPORTS COLUMN

The Baseball team are waiting for instructions from the Manager

A Word to the Wise

What a stranger and also an Eng- lish league footballer said in regards to the Clareholm footballers. "I have played the worst football of any town south of Calgary and play a strong game, but they have to go further than that. They are sup- posed to be a good team at the time, make arrangements for their accommodation and be general to all corners."

Clareholm vs. Cayley

Clareholm went to Cayley last night and played their 3rd league game. The team was into leaving as cars could not be gotten sooner. The game started at 7:45 and was fast from the start. Thierlighting got away and from a pass by Cannon Pat secured a goal but it was not allowed, offside being the fault. Cayley scored two goals in the 1st half, both being very lucky. The 2nd half was very fast and the play became rather rough several players on both sides being held out. Sam Bryan getting the middle of a mix up in front of the goal 4th-out scored for Clareholm. The backs and 3 backs play a very strong game and worked harder than ever before. Clareholm were to a large extent beaten by the small field which is about 1/4 size of the home field. The team greatly missed Sherville in goal, who was unable to get going.

The line up is as follows: Clareholm—Jesse, Goal; Bateman, Pitcher, Backs; Buckingham, Byron and Proven, Half Backs; all over the United States and Can- ada as the best collection in the world. He has received several very high offers for these horses lately but has refused them all.

In the Clareholm District there are thousands of wild horses that have never had a rope on them, and on the big Blackfoot Indian Reservation there are thousands more that will be rounded up and driven in to the Clareholm Stampede.

While the programme will include all the usual events of a Stampede, perhaps the most novel feature will be over House-top. Wagon Races. Other features include Bucking Con- tests, Wild Horses, Mule and Steer Riding, Cowboy and Cowgirl Turf Races, Indian Travois Races, Steer Roping etc.

The Blackfoot Indians will all be present in their holiday apparel. One of the most unique parades ever witnessed will be put on each day.

Arrangements have been made for Special Trains to leave Calgary each morning and return in the evening at reduced fares, while reduced fares will be obtained from all other points.

Every effort is being made to provide ample accommodations for the big crowd that will be here. By the Hotels, and the Committee are ar- ranging for a number of tents. It is suggested that the city folk bring along their tents and camping out in the fields and camp near the grounds with the Cowboys and for once enjoy in full the out-door-life.

On Thursday last the boys team gave the local senior baseballers a hard chase.

William B. Green who formerly worked in Black's barber shop arrived in town on Wednesday from Kelowna B.C.

On Friday night the league foot- ball played an exhibition game, and were victors over the "Rugged" eleven by 3 to 2.

Due Margo went to Graham to a baseball meeting today with the object of forming a league of the towns along the line.

Clareholm footballers play Nanton footballers at home on Monday at 1 p.m. sharp. It is hoped that a large crowd will turn out and cheer the boys.

The Granum High School (maybe) team visited town and played a game against the Clareholm High School (maybe) team Monday. Although the score was in Clareholm's favor by 11 to 1 the game was very exciting and some very fast plays were made.

Williams making the Star play for Clareholm and W. C. Schell for Granum. The umpire was Mc- Dougal of Granum.

The Wood Pitt photographer, Mr. Ernest Johnson, the only colored man in Wainwright in the Hills, has thought out many of the secrets of making the toll that he knows best and is ever ready to impart them to others. "When they come to me for advice," he said to one of the cameras, "I always tell 'em it depends on what their performance is. If they've arrived at the quality of master's work I always tell 'em to save the blindest flash. If they ask why, as they usually do, I say, 'So's you'll only have the little stick to saw when you get tucked out.'"

As I tell you now, "cockaded Ernest" graciously, quite as if the camera had asked for "politeness" on a back yard job, "It's just the same with pitin'."
